## **Individual Noncash Contributions, 2013**

by Pearson Liddell and Janette Wilson

or Tax Year 2013, individual taxpayers who itemized deductions reported a total of \$51.6 billion in noncash charitable contributions on a total of 22.2 million returns. About a third (7.7 million) of these returns reported \$46.4 billion in charitable contribution deductions using Form 8283, *Noncash Charitable Contributions*. Individual taxpayers use this form when the amount of taxpayer deductions for all noncash donations on Schedule A, *Itemized Deductions*, exceeds \$500.

The number of individual returns filed by taxpayers with a Form 8283 attached increased 2.4 percent, from 7.6 million for Tax Year 2012 to 7.7 million for Tax Year 2013. Total donations increased 8.1 percent, from \$42.9 billion for 2012. Corporate stock donations increased 17.7 percent from \$16.8 billion for 2012 to \$19.7 billion for 2013. Of the \$46.4 billion in noncash donations reported, almost half went to foundations (\$11.8 billion or 25.5 percent of the total) and large charitable organizations (\$11.0 billion or 23.7 percent of the total). Taxpayers 65 years and older made up a smaller percentage (18 percent) of the returns filed with Form 8283 than all other age groups except the under-35 group, but they accounted for the largest percentage (37.3 percent or \$17.3 billion) of noncash charitable contributions.

The American Taxpayer Relief Act of 2012 (Public Law 112-240) was introduced in the summer of 2012, passed both houses of Congress on January 1, 2013, and was signed into law on January 2, 2013. This legislation allowed a series of temporary, though long-standing, tax cuts to expire for high-income individuals for 2013 and beyond. The net effect was an increase in the top marginal tax rate on ordinary income, long-term capital gains, and qualified dividends. This legislation therefore had the potential to induce some taxpayers to shift their charitable contributions from 2012 to 2013.

The legislation also extended for 2012 and 2013 the provision authorizing qualified charitable distributions—otherwise taxable distributions from an IRA owned by someone 70 1/2 years or older—to be paid directly to an eligible charitable organization. Each year, the IRA owner can exclude from gross income up to \$100,000 of such distributions. For Tax Year 2012 only, IRA owners had the choice to report such contributions made in January 2013 as if they occurred in 2012. In addition, IRA owners who received IRA distributions during December 2012 could contribute, in cash, all or part of the distributions to eligible charities during January 2013 and have them count as qualified distributions for 2012.

Finally, the legislation extended for 2012 and 2013 special rules that temporarily raised the percentage-of-income limitations for gifts of certain conservation easements. This allowed individuals to deduct up to 50 percent of their contribution base and allowed individuals who are qualified farmers and ranchers to deduct up to 100 percent of their contribution base. In addition, the donors could deduct any remaining value of the donated easement over the succeeding 15 years.

#### **Types of Noncash Contributions**

Corporate stock accounted for the largest amount and percentage (\$19.7 billion, 42.5 percent) of taxpayers' total noncash charitable contributions for 2013, followed by clothing (\$9.7 billion, 21 percent), and household items (\$4.2 billion, 9.1 percent) (Figure A). Only about 138,000 returns included stock donations, compared to 6.0 million returns with clothing donations and 2.9 million with donations of household items. The average corporate stock donation, however, was \$143,369 per return, while the average donation for clothing (\$1,611 per return) and household items (\$1,467 per return) was much smaller. In comparison, the highest average donation amount per return was for easements, followed by other investments (excluding corporate stocks or mutual funds). Slightly more than 2,000 returns had donations of easements totaling \$1.1 billion, or \$535,311 per return, and 6,050 returns had donations of other investments totaling \$2.2 billion, or \$368,880 per return.

Donation amounts changed between 2012 and 2013 for several categories of noncash assets (Figure B). The most notable negative percentage changes occurred in airline tickets and miles (-72.9 percent); planes, boats, and other vehicles (-39.2 percent); other investments (-37.7 percent); and land (-32.7 percent). While these percentage decreases were large, their overall significance is muted by the fact that their share of the overall donation amount was small. Combined, they represented only 6.5 percent of the total donation amount (less than .01 percent, 0.2 percent, 1.4 percent, and 4.8 percent, respectively). The most notable positive percentage changes occurred in corporate stock, increasing from \$16.8 billion in 2012 to \$19.7 billion in 2013 (17.7 percent), real estate, increasing from \$0.8 billion in 2012 to \$1.4 billion in 2013 (66.4 percent), and other donations, increasing from \$2.7 billion in 2012 to \$3.6 billion in 2013 (29.4 percent).

In terms of the average donation amount, noncash contributions increased 5.6 percent per return, from \$5,676 per return

<sup>1</sup> For further details on Tax Year 2013 individual income and tax statistics, see Statistics of Income—2013, Individual Income Tax Returns (IRS Publication 1304).

<sup>[1]</sup> Total number of returns does not equal the sum of returns by donation type because a return could have more than one type of donation.

<sup>[2]</sup> Less than 0.05 percent.

<sup>[2]</sup> Other donations include donations of intellectual property.

NOTE: This figure is based on data reported on Form 1040, U.S. Individual Income Tax Return; Schedule A, Itemized Deductions; and Form 8283, Noncash Charitable Contributions. SOURCE: IRS Statistics of Income Division, Noncash Charitable Contributions, March 2016.

<sup>© 2006-2020,</sup> CPC Holdings, LLC. All rights reserved.

with Form 8283 attached in 2012 to \$5,995 per return in 2013.<sup>2</sup> Despite this overall increase in the contribution average, other investment donations declined greatly from more than \$695,000 to about \$369,000. While appearing to be a significant, this decrease was nominal as the category only accounted for 4.8 percent of all donations. Donations of mutual funds also experienced a significant decline in average donation size, decreasing 32.6 percent from around \$110,600 to approximately \$74,500. While one of the smallest categories with respect to number of donations, easements also had a large decrease in average donation amount per return, decreasing by 38.6 percent from \$872,250 to just over \$535,300.

Average 2013 corporate stock donations increased by 1.4 percent to more than \$143,000. Clothing donations, the second largest group in terms of overall amount claimed, saw its average donation rise 2.8 percent, to \$1,611 per return in 2013. For household items, the average donation rose 6.3 percent, from about \$1,380 per return to approximately \$1,465 per return.

Over the years, taxpayer donations of corporate stock have consistently represented the highest amounts of donations. Clothing has accounted for the second largest share of donations in nearly every year since 2006; the sole exception was 2007 when taxpayers reported slightly larger noncash contributions for real estate, land, and easements. However, while the amount of clothing donations has remained consistent since 2006, the amounts deducted for corporate stock and real estate, land, and easements declined significantly between 2007 and

2009. Donations of corporate stock have almost recovered since that time, but donations of real estate, land, and easements have remained relatively low (Figure C).<sup>3</sup> In 2007, taxpayers reported \$23.7 billion in corporate stock donations, and, together, the declines in 2008 and 2009 represented a 59.0-percent decrease since 2007. For 2010, stock donations rose 37.3 percent, followed by increases for 2011 (19.5 percent), 2012 (5.1 percent), and 2013 (17.7 percent).

#### **Donations by Size of Adjusted Gross Income**

Taxpayers with an adjusted gross income (AGI) of \$10 million or more, who claimed noncash contributions, collectively deducted 8.7 percent of their AGI, claiming \$14.2 billion in contributions on a little more than 4,600 Forms 8283 (Figure D). Donations from taxpayers in this AGI category represented 30.6 percent of all individual taxpaver noncash donations reported on Forms 8283 in 2013, while representing only 0.1 percent of the returns filed and 11.7 percent of the AGI by taxpayers who claimed noncash contributions. Taxpayers in the \$100,000 to \$200,000 category reported \$6.6 billion in contributions on 2.8 million tax returns; these contributions represented 1.7 percent of their AGI and 14.2 percent of all donations claimed. Taxpayers in the \$200,000 to \$500,000 category reported \$5.4 billion, or 11.7 percent of donations claimed. Taxpayers in these two income groups accounted for 51.5 percent of the AGI among taxpayers who had noncash charitable contribution deductions on Form 8283 in 2013. As stated above, the average

NOTE: This figure is based on data reported on Form 1040, U.S. Individual Income Tax Return; Schedule A, Itemized Deductions; and Form 8283, Noncash Charitable Contributions SOURCE: IRS, Statistics of Income Division, Noncash Charitable Contributions, March 2016.

donation for all taxpayers who claimed noncash donation deductions on Forms 8283 was \$5,995 per return. In comparison, the highest average amount claimed was \$3.1 million per return by taxpayers in the \$10 million-or-more category, followed by approximately \$420,400 claimed per return by those in the \$5 million-to-\$10 million category.

The percentage change in the number of returns claiming noncash charitable contributions and the amount of those contributions claimed on Forms 8283 between 2012 and 2013 varied by size of adjusted gross income (Figure E). With overall donations rising by 8.1 percent between Tax Years 2012 and 2013, taxpayers in a majority of AGI categories reported increases in charitable contributions (unlike between 2011 and 2012). All AGI classes above \$50,000, with the exception of taxpayers in the \$10-million-or-more category, reported increases. Taxpayers in this income group gave contributions of \$12.9 million less in 2013 representing a 0.1-percent decrease in donations. The largest percentage increase was made by taxpayers in the \$1 million-to-\$1.5 million category, who reported a 57.2-percent increase in noncash donations from \$1.0 billion in 2012 to \$1.5 billion in 2013.

## **Types of Charitable Organizations**

Organizations that received noncash charitable contributions included, among others, arts groups, educational institutions, environment and animal related organizations, health and medical research organizations, religious organizations, and public and © 2006-2020, CPC Holdings, LLC. All rights reserved.

societal benefit organizations (Figure F). In terms of the noncash contribution amounts claimed by individual taxpayers, foundations (\$11.8 billion) and large organizations (\$11.0 billion) received the largest amount of donations for 2013. Donations to large organizations (23.7 percent of all donations) and foundations (25.5 percent) made up just under half of all donations reported by individual taxpayers for the year. While donations to large organizations accounted for a little less than a quarter of all noncash charitable contributions, large organizations received the second lowest average donation (about \$1,800 per return). In contrast, foundations received the largest average donation, approximately \$141,250 per return. Despite having the second largest average donation (\$130,280 per return), donoradvised funds received only 8.5 percent of the total amount deducted by taxpayers on the Schedule A. Educational institutions went from being the fourth highest in terms of amount carried in 2012 to the third highest, increasing from \$3.6 billion to \$4.6 billion, or 27.3 percent, the largest percentage increase of 2013 (Figure G).

Donations to most organization types increased between 2012 and 2013, but public and societal benefit organizations received about \$0.9 billion less in noncash contributions in 2013 than in 2012 (down 24.1 percent). The donation amounts given to large organizations, which received the second most in terms of the amount claimed for 2012 and for 2013, increased 8.6 percent, from \$10.1 billion to \$11.0 billion. Donations to foundations increased 7.4 percent, from \$11.0 billion in 2012 to \$11.8 billion

[1] Total number of returns does not equal the sum of returns by donee type because a return could have donations to more than one type of donee.

NOTE: This figure is based on data reported on Form 1040, U.S. Individual Income Tax Return; Schedule A, Itemized Deductions; and Form 8283, Noncash Charitable Contributions. SOURCE: IRS. Statistics of Income Division. Noncash Charitable Contributions. March 2016.

in 2013, whereas donations to health and medical research decreased 13.2 percent, from \$1.8 billion to \$1.6 billion.

Over the 2007 through 2013 timeframe, most organization types received the highest donation amounts in Tax Year 2007 (Figure H). Donations to each type of charitable organization declined between 2007 and 2009, the most notable being the \$8.2-billion decline (down 59 percent) in noncash donations to foundations. The organizations receiving the highest donations

in 2013 included foundations, large organizations, educational institutions, and donor-advised funds. Notably, large organizations had their highest donations over this timeframe starting with donations of \$9.7 billion in 2011, followed by \$10.1 billion in 2012, and \$11.8 billion in 2013. Following that same trend, and with similar increases, were foundations, which, over this timeframe, had \$8.8 billion in donations in 2011, followed by \$11.0 billion in 2012, and \$11.8 billion in 2013.

### **Donations by Age**

Taxpayers 65 years and older who reported noncash contributions on Form 8283 gave the most in terms of the total amount of contributions (both cash and noncash) reported on Schedule A (Figure I). This group reported \$12.7 billion in cash contributions (35.1 percent of the \$36.2 billion given in cash by filers of Form 8283) and \$17.3 billion in noncash contributions (37.3 percent of the \$46.4 billion noncash contributions reported on Form 8283) in 2013. These same taxpayers filed 17.8 percent (1.4 million) of the 7.7 million individual income tax returns with noncash donation deductions on Form 8283 for 2013. They also received 19.1 percent of the AGI among these taxpayers in 2013. The average noncash donation for taxpayers ages 65 and older was approximately \$12,575 per return, more than twice the average of the next largest group, taxpayers between 55 and 65 years old. Taxpayers in this latter age category donated 3.1 percent of their total AGI (\$369.2 billion) in noncash contributions; combined with their cash gifts, these taxpayers donated 5.7 percent of their AGI.

Donations of corporate stocks, mutual funds, and other investments accounted for \$11.5 billion (66.5 percent) of all noncash contributions made by taxpayers ages 65 and older and represented 48.8 percent of donations of this type of property and 25.3 percent of all noncash charitable contributions donated in 2013 (Table 4). For these taxpayers, real estate, land, and easement donations was the next largest category, at just under \$1.5 billion, closely followed by clothing donations (\$1.5 billion). Taxpayers in the 55 under 65 age category claimed noncash donations of \$11.6 billion, with an average donation of \$6,115 per return. Those in the 45 under 55 age category donated less (\$9.0 billion or 2.2 percent of their AGI), with an average donation just under \$4,175 per return. For cash contributions, taxpayers 55 under 65 years old gave \$9.6 billion in cash donations, and those in the 45 to 55 age group gave \$8.2 billion.

All age groups donated more in noncash donations in 2013 than in 2012. Donation amounts in the ages 65 and older category increased 9.8 percent, from \$15.8 billion (Figure J). Taxpayers in the 55 under 65 age category donated 5.5 percent

NOTE: This figure is based on data reported on Form 1040, U.S. Individual Income Tax Return; Schedule A, Itemized Deductions; and Form 8283, Noncash Charitable Contributions. SOURCE: IRS, Statistics of Income Division, Noncash Charitable Contributions, March 2016.

more in 2013 than 2012 (giving \$11.0 billion in Tax Year 2012). Taxpayers under age 35, the smallest group in terms of the amount donated and number of returns, increased their donation amount 7.6 percent to \$3.1 billion for 2013.

#### **Explanation of Selected Terms**

Age—Defined by the primary taxpayer's age at the time of filing.

Amount carried to Schedule A—This is the fair market value from Form 8283, Section A, (items with a deduction of \$5,000 or less and certain publicly traded securities) plus the lesser of the fair market value or amount claimed on Section B (items with a deduction of more than \$5,000 except contributions of certain publicly traded securities). The dollar amounts of donations reported in this article reflect the amounts reported on Form 8283 that are carried to Schedule A for reporting itemized deductions.

Donor's cost—This is also known as the adjusted basis or tax basis, and is generally the amount the owner paid for the property. If the owner received property as a gift, the original cost carries over to the recipient of the gift, increased by any gift tax paid on the appreciated portion of the property. If acquired from a decedent, the basis is the fair market value of the property used for estate tax purposes.

Fair market value—The fair market value is the value a willing and knowledgeable buyer would pay a seller in a voluntary situation.

Number of donations—For this study, the IRS Statistics of Income (SOI) Division collected data in the manner reported by taxpayers. For example, if a tax return had clothing listed twice, even if it was given to the same donee organization, it was counted as two separate donations.

Number of returns—The number of returns in the Individual SOI sample with Form 8283 attached. For this study, SOI counted all returns with Form 8283 attached, whether or not the taxpayer carried Form 8283 amounts to Schedule A.

Note that the allowable amount of a noncash deduction depends on whether the property is ordinary income or capital gain property. Ordinary income property is property that, if sold, would generate ordinary income or short-term capital gain. Examples are clothing, household items, inventory, and capital assets held less than a year. Capital gain property results in a long-term gain, if sold. Examples of this are real property used for a taxpayer's business and corporate stock held more than 1 year.

The total charitable deduction is generally limited to no more than 50 percent of AGI. Taxpayers can reduce this amount (to 30 percent or 20 percent), depending on the type of property donated and type of charitable organization. The statistics in this article include the entire deduction amount reported by taxpayers and transcribed from Form 8283 to line 17 of Schedule A. The limitations are then applied to the amount reported on line 19 of that schedule.

## **Donated Property Types**

*Accessories*—Includes belts, furs, jewelry, purses, scarves, and watches.

Art and collectibles—Includes art works, such as ceramics, drawings, paintings, photographs, and sculptures; and collectibles, including coins, books, historical documents, memorabilia, rare or valuable clothing, jewelry, and stamps.

Cars and other motor vehicles—Includes vehicles designed for road transportation, such as cars, buses, motorcycles, motor homes, SUVs, and trucks.

*Clothing*—Includes apparel for children, men, and women, such as coats, dresses, hats, shoes, and suits. Also includes sports and school uniforms.

Conservation easements—Includes land and right-of-way easements. Donations of this type must be a qualified real property interest contributed to a qualified organization for conservation purposes.<sup>4</sup>

Corporate stock—Includes shares of publicly traded and closely held common and preferred stock, as well as stock rights.

*Electronics*—Includes cameras, computer systems, copiers, DVD players, fax machines, stereo systems, televisions, telephones, and video games.

Façade easements—Includes real estate easements and historical preservation or architectural easements.

*Food*—Includes beverages, individual food items or meals, snacks, restaurant coupons, vitamins, and wine.

*Household items*—Includes appliances, books, exercise equipment, furniture, luggage, tools, and toys.

Intellectual property—Includes copyrights, patents, trademarks, trade names, trade secrets, and certain types of software. Land—Includes farms, orchards, and open lots.

Mutual funds—Includes shares of taxable and nontaxable mutual funds, exchange-traded funds, and unit investment trusts.

*Other investments*—Includes annuities, bonds, certificates of deposit (CDs), life insurance policies, notes, options, partnership interests, and real estate investment trusts.

*Planes, boats, and other vehicles*—Includes all-terrain vehicles, airplanes, and watercraft vehicles, such as boats, canoes, ships, and waterskis.

*Real estate*—Includes apartments, cabins, houses, and other residential and commercial property.

*Services*—Includes audio presentations, catering, healthcare services, transport and travel expenses, tutoring, and other professional services.

*Other*—Includes animals, building materials, cemetery plots, medical equipment, tickets to events, and donated vacations or use of vacation property.

### **Donee Organizations**

Arts, culture, and humanities—Includes organizations involved with the arts, music, history, and cultural activities, such as museums, libraries, science centers, and theaters.

Notice 2007–50, Guidance Regarding Deductions by Individuals for Qualified Conservation Contributions, includes a tax law change for conservation contributions such that the 50-percent-of-AGI limitation is increased to 100 percent (the 100-percent limitation) for eligible farmers and ranchers.
 2006–2020, CPC Holdings, LLC. All rights reserved.

Donor-advised funds—A segregated fund within a public charity that permits the donor to have advisory privileges on distributions or investments. Donations to donor-advised funds may be understated due to the difficulty of identifying all such donations because they ultimately distribute to another charity that could be of any type.

Educational institutions—Includes organizations whose primary function is educational, such as fraternities, schools (including those with a religious affiliation), scholarship funds, and universities.

Environmental and animal organizations—Includes organizations that protect, promote, or seek to improve the environment or welfare of animals, such as local animal shelters, botanical gardens, and garden clubs.

Foundations—A foundation is a type of philanthropic organization set up by individuals or institutions as a legal entity (usually either a corporation or trust) with the purpose of distributing grants to support causes in line with the goals of the foundation. For the purpose of this study, this includes private foundations, which are often specific to a person or family, and community foundations.

*Health and medical research*—Includes hospitals, medical associations, nursing homes, and hospices.

Large organizations—Includes large national and international organizations that have local chapters, such as Goodwill Industries International, The Salvation Army, United Way International, Habitat for Humanity International, and Boy Scouts of America.

*Other*—Includes all other organizations that are not included in any other category.

Public or societal benefit—These are organizations that benefit individuals or communities and do not meet the conditions of other categories such as education, health, and religion. These include homeless shelters, food banks, and political think tanks.

*Religious organizations*—Includes churches, synagogues, and bookstores and thrift stores run by religious organizations.

#### **Data Source and Limitations**

These statistics are based on a sample of individual income tax returns (Forms 1040, 1040A, and 1040EZ, including electronically filed returns) filed during Calendar Year 2014. The IRS Statistics of Income (SOI) Division stratified the returns in the sample based on the: (1) larger of positive income or negative income (absolute value); (2) size of business and farm receipts; (3) presence or absence of specific forms or schedules; and (4) usefulness of returns for tax policy modeling purposes. SOI then selected returns at rates ranging from 0.10 percent to 100 percent.

SOI based the Tax Year 2013 data on a sample of 332,040 returns and an estimated final population of 147,759,485 returns.<sup>5</sup> The number of returns in the sample with an attached Form 8283 was 44,579.

Since the data presented here are estimates based on a sample of returns filed, they are subject to sampling error. To use the statistical data provided properly, the magnitude of the potential sampling error must be known; coefficients of variation (CVs) are used to measure that magnitude and are estimated for the number of returns and money amounts for selected income items (Figure K). The reliability of estimates based on samples and the use of CVs for evaluating the precision of estimates based on samples are discussed in SOI Sampling Methodology and Data Limitations (see https://www.irs.gov/uac/SOI-Tax-Stats-Statistical-Methodology).

Pearson Liddell and Janette Wilson are economists with the Individual Research Section. This article was prepared under the direction of Michael Strudler, Chief.

<sup>[1]</sup> Not every donation has a donor cost reported.

<sup>[2]</sup> Amount carried to Schedule A is the fair market value from Section A (items with a deduction of \$5,000 or less or publicly traded securities) plus the lesser of the fair market value or the amount claimed on Section B (items with a deduction of more than \$5,000).

<sup>\*</sup> Estimates should be used with caution because of the small number of sample returns on which they are based.

<sup>[1]</sup> Not every donation has a donor cost reported.

<sup>[2]</sup> Amount carried to Schedule A is the fair market value from Section A (items with a deduction of \$5,000 or less or publicly traded securities) plus the lesser of the fair market value or amount claimed on Section B (items with a deduction of more than \$5,000).

NOTE: This figure is based on data reported on Form 1040, U.S. Individual Income Tax Return; Schedule A, Itemized Deductions; and Form 8283, Noncash Charitable Contributions. SOURCE: IRS, Statistics of Income Division, Noncash Charitable Contributions, May 2016.
